

# TUTORIAL VIDEOS

CUBASE • LOGIC • PRO TOOLS • REASON • LIVE

Imagine having a genius tutor available 24/7 to explain the deep inner workings of your software program. That's exactly what Brainwerks tutorial videos offer. Covering the major digital audio workstations on the market, these tutorials go beyond the manual by explaining how different software programs work together. For example, how to best use Battery with Cubase or Reason with Pro Tools. It is all here - well paced and easy to digest, yet as deep and detailed as you need to get - definitely required viewing.

## USER QUOTES

*"I knew some basics, but Explore Pro Tools opened my eyes to some really cool stuff you can do with Pro Tools. My songs sound and feel much better because of it!"* **Randy Husman** - Colorado Springs, CO

# ProTools Tips & Tricks

Intern with Pro Tools Master Kenny Gioia

Pro Tools Tips and Tricks with Kenny Gioia Volumes 1 & 2 represent the best Pro Tools productivity tools ever made. With these DVDs, you will see how a real Pro Tools engineer flies through sessions with speed and precision. You'll get real world tips and tricks that will take your Pro Tools skill set and production workflow to the next level. This is not a video manual, it is an internship with a master.

With over 8 hours of run time on both volumes, these highly insightful *tips & tricks* videos cover topics such as mixing, production, utilities, beat detective, shortcuts and workflow. You'll learn techniques used by Kenny to get great sounding tracks, create tight loops and rhythm parts, and you will see cool effects and utility tricks that will beef up your Pro Tools chops. A must have for every Pro Tools user!

Running almost 3 hours in length, video topics include drum programming and sequencing, arranging drum sequences, setting up a mixer with aux effects, loading instruments and recording a sequence, quantization and editing a sequence, vector editing automation lanes, Thor synth programming and sequencing, importing vocals into Reason, using equalization to shape the mix, mastering and so much more...

If you use Reason 4, this collection will take your productions and sound to the next level!

## TUTORIAL DETAILS

There are 51 videos providing over 2 hours of in-depth training!

Reason 4 Overview	Sequencing & Arranging
Drums & Percussion	Song Development
Song Arrangement	Vocals in Reason
Dynamics Processing	Special Effects
Engineering A Mixdown	Mastering

## USER QUOTES

*"I always wondered how to make my Reason tracks sound professional and get them to sound big and loud like songs I heard on the radio. Music Production with Reason 4 showed me how to do it step by step. Thanks Josh and Kurt, you guys rule!"* **Peter Larkin** - Boise, ID

## ABOUT THE TUTORS

**Kurt Kurasaki** - aka *Peff*, authored Power Tools for Reason 3, the Bible of Reason 3rd party manuals. He founded Reason fan site *peff.com*, a universe of all things Reason. This internationally recognized uber Reason Guru sometimes holds Propellerhead master classes.

**Josh Mobley** - aka *Neoverse*, is a composer for TV, film and an occasional dance remixer for artists such as The Pretenders and Jody Watley. Recent work includes scoring movie trailers for The Weinstein Company, Tri-Star Pictures and Sony Pictures.

# Garageband Tutorial

Create a Masterpiece fit for the Dance floor

This DVD contains music tutorials from Point Blank, the award-winning Training Center for Apple products. It demonstrates how to use Apple's music program Garageband to produce hit records. This DVD is not a video manual. It is much more than that. It is a musical journey into the creative task of making music with Garageband. It begins with an overview of Garageband then flows into a wonderful tutorial on how to build up a hit song from scratch. You will learn about working with AppleLoops, laying down a solid beat and spicing it up with hi-hats, tambourine, bass lines and more. Then learn how to mix your creation into a masterpiece fit for the dance floor. No Garageband user can afford to be without this essential tool.

## TUTORIAL DETAILS

- ★ 1.5 hours of high resolution video
- ★ Easy-to-use interface
- ★ Original AppleLoops and song templates
- ★ Suitable for users of Garageband 1, 2 & 3

## Video Topics include:

☞ Getting Started	☞ Software Instruments
☞ Using AppleLoops	☞ Creating a Riff
☞ Programming Beats	☞ Double-Tracking
☞ Creating a Bassline	☞ Harmonizing

## USER QUOTES

*"Wow! I never knew you could do so much with Garageband! This DVD really opened my eyes to producing music at home. I always thought that you had to spend a whole load of money on studio gear but these guys show you how to make tracks on your computer that sound like the real deal."* **John Morgan** - London, UK

*"The DVD was real easy to follow. You get some cool sounding loops and sounds to start you off, plus it breaks down all the techniques that the pro producers use. I've learned loads in a short space of time. I never learned to play an instrument, but now I'm producing my own tracks."* **Elaine Humphreys** - London, UK

# Logic 8 Explained

Tips & Tricks from Eli Krantzberg

Logic 8 Explained! is your in-depth, one on one personal training experience with Logic 8 guru, Eli Krantzberg. You'll learn everything you need to know to get started and make music with the vast and powerful Apple® Logic 8 DAW software.

After viewing this amazing collection of in-depth video tutorials, you'll know how to create sessions and tracks, record and edit audio and MIDI, use virtual instruments and effects, understand bussing, key commands, different windows, screen sets, how to use loops, tools, automation, templates and bounce to disc for CD and iTunes, and so much more! Make Logic 8 your weapon of choice for recording and producing music. Get Logic 8 Explained today!

## TUTORIAL DETAILS

Some of the topics covered will include:

- ★ 5.5 hours of high resolution video
- ★ Well-paced tips from a Logic guru
- ★ Practical tutorial that's more than a video manual
- ★ Suitable for users of Logic 8 and Logic Express

☰ Introduction to Logic 8	☰ Logic 8 Basics
☰ Getting To Work	☰ Working With Tracks
☰ Plug-ins & Channel Strips	☰ Tools & Zooming
☰ Recording & Editing	☰ FX, Mix and Automate
☰ Bouncing a Mix & Templates	

## USER QUOTES

*"I was frightened by Logic 8 when I first got it, not any more though. It's nothing but sweet dreams after watching Eli make it all so simple."*

**S. Matthews** - Columbia, SC

*"I was worried that switching from another DAW to Logic 8 was going to be a hard transition, but Eli covered all the bases and made learning Logic simple and painless. Thanks guys!"*

**D. Castille** - Round Rock, TX

# Producing with Cubase

## A Cubase Master Class from a Master Producer

This DVD contains music tutorials from Point Blank, the award-winning Steinberg Training Center. It demonstrates how to use Steinberg's music program Cubase 4 (also includes compatible footage from SX3) to produce hit records. This DVD is not a video manual. It is much more than that. It is a musical journey into the creative task of making music with Cubase. It is big on the application and how to make music with your whole studio. You take this journey with real producers who are making real hit records and learn how they approach all aspects of composing, recording and mixing music. Producing with Cubase is an essential tool for any Cubase user.

### TUTORIAL DETAILS

Tips and tricks from the producers of **Massive Attack** on how to make hits with Cubase 4.

- ★ 90 minutes of high resolution video
- ★ Programming a beat using HALion
- ★ Over 30 FREE killer loops
- ★ Choosing the right recording methods
- ★ Using song templates
- ★ Writing and programming a bassline
- ★ Various basic sequencing skills
- ★ Designed for users of Cubase 4 & SX3

### USER QUOTES

*"I'd never used Cubase before and when I opened it up it was pretty intimidating. The Point Blank DVD tutorials broke it down subject by subject and just concentrated on the skills you need to get your music sounding professional. These guys really know what they're talking about!"* **Andy Dauth** - Brisbane, Australia

*"I tried reading the Cubase manual but just found it really uninspiring. With these DVD's you get to see how to build up a track start to finish. And it's all explained really clearly –not in technical jargon. I've been putting in plenty of practice and I'm just about to send out my first demo CD"* **Brian Barrett** - Ibiza, Spain

# Enter Live

## The Ultimate Guide to Ableton Live

Ableton Live is one of the hottest music creation programs around. Enter Live 6! is the best way to get started with Ableton Live 6. Take a good look at your studio and you will see thousands, perhaps even tens of thousands, of dollars invested in hardware and software musical equipment. To get the most of out your studio you have to invest an appropriate amount of time mastering your tools. Time to learn the main features and how to apply them. Enough time to experiment and use the features to continuously raise your skill levels. One thing is certain, lots of equipment and no expertise means tools that are not used to their fullest potential.

Brainwerks tutorials videos are a short cut. All salient functions of a tool are explored in practical terms by experts who know these tools inside and out. It's like having a grand master available to you 24/7 to answer questions and give you tips and tricks. In all cases the videos are fun, thorough and highly informative in a practical sense.
